

Victorian Fisheries Authority Commercial Fish Production

Information Bulletin

July 2017 to June 2018

Notes to the reader

This annual Victorian Fisheries Authority Commercial Fish Production Information Bulletin is produced by Victorian Fisheries Authority.

This issue is compiled from catch and effort data supplied by Victorian commercial fishery access licence holders on mandatory monthly fishing returns and from aquaculture production data supplied by Victorian aquaculture licence holders on mandatory 6-monthly aquaculture returns. In previous years, production value was estimated from price-at-first-sale data supplied by the Melbourne Fish Market, selected fish processors and selected fish aquaculture farms. Price data is unavailable for the majority of species since 2010/11. The provision of accurate and timely data from licence holders and processors is acknowledged.

All data in this bulletin have been computer validated and do not include data received or processed after 1 October. Fishery production compliance rates for submission of return forms by that date were 100% for the fiscal years 2012/13 to 2017/18. Aquaculture production compliance rates for submission of return forms by 1 October were 100% for the fiscal years 2012/13 to 2016/17 and 99% for 2017/18.

Data presented in this publication have been provided in an aggregated form to protect commercial confidentiality of individual licence holders; summary data are not provided where less than five licence holders have supplied the data unless prior permission was obtained.

The State of Victoria and its employees do not guarantee that the publication is without flaw of any kind or is wholly appropriate for your particular purposes and therefore disclaim all liability for any error, loss, or other consequence, which may arise from you relying on any information in this publication. Data can change from one issue of the bulletin to the next issue as a result of improved compliance, correction of data errors, or use of more representative price data.

To maintain consistency with other States and the Commonwealth, the names for fish used in this Bulletin are those in the List of Standardised Australian Fish Names developed as a National Standard based on the Codes for Australian Aquatic Biota (<http://www.marine.csiro.au/caab/namelist.htm>). Therefore, some fish names are different from those used in previous Bulletins, and may be different from the names used on the catch and effort returns completed by fishers. Readers should refer to the list of names on pages 20 and 21 of the Bulletin to find any previously used species names.

¹Weight (live, tonnes); ²Value (\$'000) from Jan 2011, Melbourne Fish Market price data collection ceased. Selected processors are still providing price data for some species including abalone, rock lobster, Australian salmon and pilchards; ³nd, no data obtained; ⁴na, not applicable; ⁵id, insufficient data to report because there are less than five licence holders (policy requirement to protect commercial confidentiality of data); ⁶Shark carcass weight (beheaded and eviscerated with fins attached) for Victorian Proclaimed waters only; ⁷Aquaculture weight and value does not include hatchery production; ⁸mussels and crustaceans; ⁹no, number only of ornamental fish available (2,438,000 for 2015/16, 2,283,000 for 2016/17 and 1,915,000 for 2017/18).

Fishery Production

Introduction

Victoria's commercial fisheries began at the time of European settlement during the 1840s. These fisheries have been managed under various Fisheries Acts since 1859 and fishery catch data have been collected continuously since 1911. Catch and effort data for the period since June 1978 have been stored in an electronic database where the data are secure and readily accessible for various uses.

This information bulletin is designed to meet the data needs of the fishing industry, fishery researchers, Fisheries Victoria, the Victorian Government, the Commonwealth Government, and the United Nations Food and Agricultural Organisation.

Under the *Fisheries Act 1995*, lodgement of catch and effort return forms is a condition of a fishery access licence. Individual returns are collected under Section 146 of the Act and are treated confidentially according to the *Fisheries Act 1995* and the *Information Privacy Act 2000*. The data is released in aggregated form only. To preserve confidentiality, data is not reported if less than five licence holders have contributed to it.

Number of Fishery Access Licences (June 2018)

Abalone, Western Zone	14	Bay & Inlet Fisheries	
Abalone, Central Zone	34	Corner Inlet	18
Abalone, Eastern Zone	23	Gippsland Lakes	10
Bait (General)	11	Gippsland Lakes (Bait)	9
Giant Crab	14	Gippsland Lakes (Mussel Dive)	2
Eel, Fishery A (Transferable)	18	Lake Tyers (Bait)	1
Ocean (General)	162	Mallacoota Lower Lake (Bait)	1
Purse Seine (Ocean)	1	Port Phillip–Western Port	9
Rock Lobster, Western Zone	71	Port Phillip Bay (Mussel Bait)	0
Rock Lobster, Eastern Zone	36	Scallop Dive (Port Phillip Bay)	1

Southern Rock Lobster (Eastern Zone)

Catch, effort and value by month during quota year (July–June) 2017/18

Year	Month	Pot-lifts	Weight	Number	Catch	Mean	Value
		('000)	(tonnes)	('000)	rate (kg/pot-lift)	weight (kg)	(\$'000)
2017	July	16	7	4	0.44	1.65	611
2017	August	17	7	4	0.42	1.68	557
2017	September	4	1	0	0.32	1.63	115
2017	November	12	6	5	0.48	1.06	415
2017	December	20	11	9	0.57	1.24	889
2018	January	17	7	5	0.42	1.34	538
2018	February	9	4	2	0.44	1.28	332
2018	March	11	4	3	0.38	1.29	363
2018	April	10	4	2	0.36	1.31	349
2018	May	7	3	1	0.43	1.79	282
2018	June	8	2	0	0.29	2.02	222

Target pot-lifts is determined by allocating all effort to the species with catch greater than 70% of total catch prior to April 1998, but from April 1998 target species is specified in the logbooks.

Blacklip Abalone

Catch and effort by quota year (April–March) and zone during 1995/96–2017/18

Total Allowable Commercial Catch (TACC) quota management was introduced for the commercial fishery on 1 April 1988. Western Zone-all Victorian waters west of longitude 148° E (Hopkins River mouth). Central Zone-all Victorian waters between longitude 142° 31' E and 148° E. Eastern Zone-all Victorian waters east of longitude 148° E (Lakes Entrance).

Aquaculture Production

Introduction

This information bulletin is designed to meet the needs of the aquaculture industry, researchers, Fisheries Victoria, the Victorian Government, the Commonwealth Government, and the United Nations Food and Agricultural Organisation. This publication provides data on the quantity; weight of grow out production; and area of water licensed for cultivation within the Victorian aquaculture industry.

Under the Fisheries Act 1995, lodgement of aquaculture production return forms is a condition of the aquaculture licence. Individual returns are collected under Section 146 of the Act and are treated as strictly confidential. The data are released in aggregated form only.

Number of Aquaculture Licences

The Victorian aquaculture industry consists of eight industry sectors with 104 licence holders.

Industry sector	Number of licences ¹				
	2013/14	2014/15	2015/16	2016/17	2017/18
Freshwater Eels	13	10	12	13	13
Salmonids	27	23	19	18	18
Warmwater Finfish (Inland)	25	22	20	18	18
Yabby	15	16	18	17	20
Abalone	15	11	12	10	10
Blue Mussel and Other Molluscs (Bivalv)	19	18	18	16	17
Ornamental Fish	10	8	8	9	8
Other	6	4	20	21	23
Total	130	112	127	122	127 ²

¹Includes hatchery production and growout production; ²multiple licences are held by some licence holders.

Growout Production (excluding Molluscs)
