

Application for a Permit

Fact Sheet

This fact sheet has been provided to assist your understanding of the legislation and our policy when completing an application for a Permit. *Please remove this page when submitting your application.*

Type of Permits & Permit Fees

The VFA Permits are issued under three sections of the *Fisheries Act 1995*:

- Section 49. General Permit Applications (GP) **\$166.57**
- Section 72. Protected Aquatic Biota Permit (PABP) **\$166.57**
- Section 81. Noxious Aquatic Species Permit (NASP) **No Fee.**

Permit Applications

There are six sections in this permit application.
You must complete all sections.

If you have any queries on permits or completing this form, please contact the VFA Commercial Licensing Team on (03) 8392 6862.

Incomplete Applications

If you fail to provide or complete any relevant part of this application (including paying the fee), it will not be assessed and will be returned to you as incomplete. You will be required to complete and/or provide the missing information requested before it will be assessed.

Processing Times

Please allow up to six weeks for the application to be processed. Upon approval of your application, your relevant permit documentation will be posted to you in the mail.

Permit Application Fee

Permit application fees are current for 1 July 2024 to 30 June 2025.

This fee once paid is non-refundable.

The application fee must be paid when submitting the application. Payment can be made via the credit card payment authorisation in section four of this application form or via cheque/money order.

Permit Re-Issues

In accordance with the *Fisheries Act 1995*, permits are not renewable. Upon expiry of a permit, it is the permit holder's responsibility to apply for a new permit. If required, a new application form will need to be submitted with relevant evidence provided to support the application. If permit continuity is required, ensure you re-apply at least six weeks before the existing permit expiry.

Application Guidance – SECTION FOUR
