EXEMPTION

Application No. H182/2025

Under section 89 of the **Equal Opportunity Act 2010** ('the Act'), the applicant, Ascent Pty Ltd (ACN 613 991 110) ('Ascent' or 'the Applicant'), seeks an exemption from liability under sections 16, 18, 21, 107 and 182 of the Act

so that it can comply with its obligations under the United States of America ('US') International Traffic in Arms Regulations ('ITAR') and the **Australian Security Intelligence Organisation Act 1979** (Cth) ('ASIO Act') in so far as they relate to the nationality and national origin of present and future employees and contractors ('personnel') for the following proposed exempt conduct in accordance with the conditions noted in the conduct:

- (a) Require members or potential members of Ascent's Victorian workforce to provide details of nationality and country of origin to enable Ascent to determine whether they are permitted under security requirements to work on certain defence-related projects or have access to related controlled material or controlled information.
- (b) Identify (by means of a badge, maintenance of a list, or otherwise) those persons in its Victorian workforce permitted by virtue of their nationality to work on certain defence-related projects or have access to related controlled material or controlled information so as to distinguish them from those not so permitted.
- (c) Prevent the release of controlled material or controlled information to members of that workforce on the basis of their nationality.
- (d) Require members of that workforce to execute formal security agreements based on nationality.
- (e) Restrict access to controlled material and controlled information connected with certain defence-related projects to particular members of that workforce based on their nationality.
- (f) Restrict access to areas of its facilities connected with certain defence-related projects to particular members of its Victorian workforce based on their nationality.
- (g) Reject applications to join its Victorian workforce in positions relating to certain defence-related projects based on the applicant's nationality and take into account a person's nationality in determining who should be offered employment or contract work requiring access to controlled material or controlled information.
- (h) Transfer members of its Victorian workforce from certain defence-related projects on the basis that, due to their nationality, Ascent may not permit them to work on those

projects, whether that transfer takes into account existing or changed nationality.

- (i) Disclose information about the nationality of members of its Victorian workforce to:
- (i) the US Department of State;
 - (ii) the US Department of Commerce;
 - (iii) the US Federal Aviation Authority;
 - (iv) the Australian Department of Defence; and
 - (v) any other organisation for which or on whose behalf or at whose request Ascent undertakes work in respect of which Ascent has (directly or indirectly) an obligation not to transfer defence-related information to non-Australian citizens.

Definitions

In this exemption:

‘Commission’ means the Victorian Equal Opportunity and Human Rights Commission.

‘Controlled information’ means information (including classified or sensitive information and technical data) to which the security requirements apply.

‘Controlled material’ means material (including equipment, technology, articles and services) to which the security requirements apply.

‘Discriminate’, ‘employee’ and ‘contract worker’ each have the meaning given in the Act.

‘Security requirements’ means any of the following:

- (a) requirements made by the Australian government, that government’s Department of Defence or any other department of that government under the Customs (Prohibited Exports) Regulations 1958 (Cth), the Defence Services Manual, or a term or condition of a licence or approval granted under those regulations or under the **Customs Act 1901** (Cth), including requirements for personal security clearances;
- (b) requirements of laws of the US, including but not limited to, the ITAR and the Export Administration Regulations including requirements of any permit, licence or approval granted, or agreement made, under those laws; and
- (c) contractual requirements applying to the Applicant and relating to any of the requirements mentioned in paragraph (a) or (b).

‘proposed exempt conduct’ means to discriminate on the grounds of nationality against any member of the Applicant’s Victorian workforce or anyone who wishes to join that workforce, in relation to defence-related projects undertaken or to be undertaken by the Applicant, and only to the extent required to enable the Applicant to comply with the security requirements.

‘workforce’ of the Applicant means the Applicant’s employees and contract workers.

Upon reading the material filed in support of the application, including the affidavit of Celanie Meyer, Business Manager for the Applicant and annexures thereto, the Tribunal is satisfied that it is appropriate to grant an exemption from sections 16, 18, 21, 107 and 182 of the Act to enable the Applicant to engage in the proposed exempt conduct.

In granting this exemption, the Tribunal notes:

- The applicant operates a consultancy business which provides professional engineering, project management and logistics support to the defence, intelligence and security industries.
- The applicant has contracts with the Australian Department of Defence and other defence agencies and is also regularly engaged on projects which are managed by organisations subject to US law, in particular the ITAR. These regulations impose strict limits on access to certain controlled material and controlled information (‘ITAR controlled items’) based on citizenship, previous citizenship, race or nationality, and substantive contacts (‘citizenship information’).
- The Applicant is also regularly engaged on projects with the Australian government which require security assessments under the ASIO Act. The Applicant is engaged on these projects either directly by the Australian Defence Force, or alternatively, as a subcontractor by another organisation which is engaged as a primary contractor on a project with the Australian Government or the US. The applicant’s engagement on defence projects is therefore subject to additional regulations and requirements to ensure it has the requisite security clearances and is otherwise compliant with relevant legislation including the ITAR. As a result, the Applicant is required to identify the nationality and country of origin of its employees (including

prospective employees), and based on that information, make further enquiries or decisions about a person's employment and/or involvement on a particular project. The Applicant has applied for an exemption from the Act so it can fulfil its contractual obligations on defence projects without contravening the Act.

- The Applicant has complied with directions given by me on 16 July 2025 to notify all its Victorian personnel of the application. The information provided states that there was a workforce of nine employed by the Applicant in Victoria. The Applicant has also complied with my direction to display the making of the application on its website with the details set out by the Tribunal. The Applicant's correspondence records that there were no responses to the notification and no requests for a hearing. VCAT did not receive any direct submissions or requests for a hearing, and so this decision has accordingly been made on the papers.
- I am satisfied that no relevant exceptions or exemptions apply under the Act to the proposed exempt conduct and that, without an exemption, the proposed exempt conduct would mount to unlawful discrimination under the Act. The proposed exemption is necessary under section 90(a) of the Act.
- When making decisions about exemptions, the Tribunal is required to give proper consideration to relevant human rights as set out in the **Charter of Human Rights and Responsibilities Act 2006** ('the Charter'). Arguably, this exemption limits the right to equality and, in particular, the right to equal and effective protection against discrimination of personnel with certain nationalities and citizenships (or who have contact with persons of certain nationalities and citizenships) who are or would wish to be employed or contracted by the Applicant.
- The effect of the Charter on very similar exemption applications has been explored in previous VCAT decisions, including *BAE Systems Australia Limited (Anti-Discrimination Exemption)* [2012] VCAT 349, *Raytheon Australia Limited (Human Rights)* [2014] VCAT 1370, *Thales Australia Limited and ADI Munitions Pty Ltd exemption (Human Rights)* [2014]

VCAT 1441, *Linfox Australia Pty Ltd – Exemption (Human Rights)* [2015] VCAT 528 and *BAE Systems Australia Defence Pty Ltd – Exemption (Human Rights)* [2015] VCAT 230. I adopt the reasoning applied by Member Dea in those cases and note that, for the purposes of the Charter, there is a direct relationship between the limitation imposed by a potential exemption and the purpose of the limitation. That is, the Applicant will be unable to maintain its core business with the Commonwealth and affiliated companies without the ability to screen personnel in relation to race, nationality and citizenship and those of close affiliates which would severely limit the numbers of personnel it could engage and would lead to loss of work.

- I am satisfied that, in the circumstances discussed above, the limit imposed by this exemption is reasonable and justified under the Charter.

The Tribunal hereby grants an exemption to the Applicant from the operation of sections 16, 18, 21, 107 and 182 of the Act to enable the Applicant to engage in the proposed exempt conduct. The exemption is subject to the attached Schedule of Conditions to Exemption.

The exemption is to remain in force from the date on which it is published in the Government Gazette for a period of five years.

Member

SCHEDULE OF CONDITIONS TO EXEMPTION

This exemption applies only to conduct by the Applicant where it has taken all steps reasonably available (including steps that might be taken in negotiating or performing any contract) to avoid the necessity to engage in the proposed exempt conduct.

Where the proposed exempt conduct involves moving a member of the Applicant's Victorian workforce from one project, area or facility to another, the Applicant must, through a duly authorised officer, explain to the person why he or she is being transferred and must otherwise take all reasonable steps to avoid or limit harm or loss to that person which might arise from the transfer.

Where the Applicant has a system of badges or security passes to identify those in its Victorian workforce permitted by virtue of their nationality to work on certain defence-related projects or to access related controlled material or controlled information, or levels of access to that material or information, the pass or badge may show a code that indicates the holder's nationality, but not in such a way that a person unfamiliar with the code would be able to identify that nationality.

All information relating to security passes or badges, security clearance levels, or access to controlled material or controlled information must be restricted to the Applicant's Manager of Security and Human Resources Manager and their properly appointed nominees on a 'need to know' basis.

The Applicant's employment policies must continue to refer to the terms and conditions of this exemption, and to make it clear that the purpose of requiring information regarding nationality is solely to enable compliance with the security requirements.

The Applicant must provide a copy of this exemption to:

- (a) existing contractors who supply it with contract workers, as soon as is reasonably possible after this exemption commences; and
- (b) any new contractors who supply it with contract workers, as soon as is reasonably possible after the relevant contract is entered into.

The Applicant must report in writing to the Commission and the Tribunal 12 months after the commencement of this exemption, and every 12 months thereafter while the exemption is in force, detailing in respect of the period to which the report relates, and in respect of the matters covered by this exemption:

- (a) the steps taken by the Applicant to comply with the Act and the terms and conditions of this exemption, including training and education given to its Victorian workforce, compliance audits, and any complaints made under the Act;
- (b) the number of applications to join its Victorian workforce rejected under the exemption and whether any (and if so, how many) were subsequently appointed to other roles;

- (c) the number of members of its Victorian workforce moved to other projects, areas or facilities under the exemption, and any steps taken to minimise harm or loss to those people arising from the transfers; and
- (d) the number of Victorian workforce vacancies advertised or offered under the exemption.

The Tribunal, in determining whether to grant a further exemption, may (as well as other factors) take into account any breach of these conditions and anything in any report.
