

Dear Toby,

I would like to thank the VFA and appreciate the work you have done with industry to help grow the amount of scallops to be harvested in Victorian waters. I fully support the findings stated and fully agree with the initial TAC and the terms and conditions that run currently with the proposal. This will also be of great benefit to the Lakes Entrance Fishermen's Co-Operative and also the town of Lakes Entrance who as you well know have been through a tougher than usual time with both Bushfires and COVID.

Kind Regards

Andrew Watts
